

**sdmay23-21: Automatically aligned wireless smartphone charger**

Week 3 Report

October 8 - October 14

**Team Members**Jeremy Noesen — *Scribe*Jack Welch — *Lead Prototype Designer*Malakhai Barkley — *Lead Prototype Designer*Noah Pritchard — *Client interactor*Remington Greatline — *Lead Researcher*Greg Matson — *Lead Researcher***Summary of Progress this Report**

This week, we worked on the project plan document and started to think about our initial design. We ordered a wireless charger to test some of our hypotheses to help determine our design. We also did the extra steps for weekly report 2

**Pending Issues**

No current pending issues

**Plans for Upcoming Reporting Period**

Prepare for lightning talk, reverse engineer wireless charger

**Individual Contributions**

Team Member	Contribution	Weekly Hours	Total Hours
Jeremy Noesen	Took meeting notes, worked on project plan, edited website with weekly reports	3	0
Jack Welch	Work on project plan	3	
Malakhai Barkley	Work on project plan, order wireless charger	2	
Noah Pritchard	Work on project plan, send previous weekly report to client	3	0
Remington Greatline	Work on project plan	2	0
Greg Matson	Work on project plan	1
